

Since 1993 year **Corpus Medica, UAB** provides customer-oriented pharma services: from product development to post-marketing monitoring. Our market analysis, product development, regulatory affairs, pharmacovigilance, batch release site, logistics and marketing service helps our partners to transfer product from laboratory to Lithuania and Baltic States market.

Corpus Medica has the following authorizations:

- GMP Manufacturing authorization and import from non-EU countries
- Good Distribution Practice (GDP) certificate
- Wholesale distribution license

Regulatory & Product Development service

Product dossier pre-submission assessment and creation of strategic plan for product registration procedure

More than twenty years experience in pharma regulatory practice has shown that successful way to marketing authorization is relevant product development program along with selection of appropriate type of application and authorization procedure. We elaborate product dossier according to generic, hybrid, OTC, herbal and/or well established use type of application and handle Centralized, Decentralized (DCP) and/or National authorization procedures.

We provide for our partners:

- Pre-submission assessment of product dossier
- Scientific advice for product development program
- Selection and justification of reference product and type of application in accordance with national legislation and EU guidelines
- Elaboration of strategic plan for product registration procedure (Centralized, Decentralized (DCP) and/or National marketing authorization procedure
- Submission and management of authorization procedure

Quality Control and Batch release service

Good Manufacturing Practice for Medicinal Products requires batch release within the European Community (EC) of medicinal products holding a marketing authorization.

We serve our partners with:

- Method transfer and Analytical exchange
- Batch release testing and analysis of various finished products to customers or pharmacopoeia release specifications
- On-site auditing of manufacturing facilities and GMP inspection prior to pre-approval agency inspection
- Comprehensive EU GMP audit report detailing the level of EU GMP compliance and suggesting actions to be implemented for compliance improvement
- Off-site auditing of Site Master File, Standards of Procedure, Validation Master File
- Qualified Person (QP) service on request

Pharmacovigilance service

- Registration of the Marketing authorization holder (MAH) in EudraVigilance system
- Formulation of safety report and its transmission via the EudraVigilance system
- Periodic Safety Update Report (PSUR), including harmonization and submission
- Risk Management Plan (RMP)
- Generation of Pharmacovigilance System Master File (PSMF) and creation of Module 1.8.1 – Summary of the PV system
- Writing and Maintenance of Client specific SOPs and Process Guidelines
- Fully Operational PV Safety Database System & EMEA Certified QPPV

CeMex Farma was founded in 2009 by young and proactive pharmaceutical professionals. The pharmacists came together to offer their knowledge and provide high quality services in market research, development, registration and marketing of food supplements and cosmetic products.

High trained personnel with innovative thinking and “know-how” studies in cooperation with university academicians is a basic principal for development of new innovative food supplements and cosmetics. Our product development and contract manufacturing solutions allow us and our partners to produce a new innovative product and/or to upgrade the well known product giving new characteristics and/or use opportunities.

Being aware of the effect of nature to humans and the growing importance of herbal medicine to health, CeMex Farma introduced the first FytoLab line products to the market. FytoLab is a label of exclusively natural plant-based, high-quality products.

Aroma Balm ointment 25 g

Composition	Menthol/Camphor/Eucalyptus globulus oil/ Eugenia caryophyllus oil
Product status	Body care product
Pharmaceutical form	Ointment
Use	Adjuvant aid to facilitate breathing. Can be used for inhalations

Aroma Balm Baby cream 30 ml

Composition	Lavandula Angustifolia Oil/Thymus Vulgaris Oil/ Pinus Sylvestris Oil
Product status	Body care product
Pharmaceutical form	Ointment
Use	Adjuvant aid to facilitate breathing

Calendula (Medetky) ointment 25 g

Composition	Calendula officinalis extract
Product status	Body care product
Pharmaceutical form	Ointment
Use	Skin care

Balsamic liniment by Vishnevsky 40 g

Composition	Ricinus communis seed oil/Betula alba oil/Bismuth subgallate
Product status	Body care product
Pharmaceutical form	Ointment
Use	Skin care

Flebofyt cream-gel 25 g

Composition	Diosmin/Hesperidin and other ingredients (Urea, Menthyl lactate)
Product status	Body care product
Pharmaceutical form	Cream
Use	Helps to maintain good venous blood flow and reduces the severity of swelling

Diosfyt 500 mg tablets, N60

Composition	Diosmin/Hesperidin
Product status	Food supplement
Pharmaceutical form	Tablets
Use	Helps to maintain good venous blood flow and elasticity

Heparsil 35 mg tablets, N80

Composition	Silymarin
Product status	Food supplement
Pharmaceutical form	Tablets
Use	Helps to maintain a normal liver function

PRODUCTS

Dionit + Fibers powder for oral suspension 5,25 g

Composition	Diosmectitum/Fibers
Product status	Medical device
Pharmaceutical form	Powder for oral suspension
Use	Acute diarrhea or chronic painful gastrointestinal disorders

Carbofyt 250mg tablets, N20

Composition	Carbo activatus
Product status	Food supplement
Pharmaceutical form	Tablets
Use	Absorbent

Cardio (Korvalol Fytolab) drops 25 ml

Composition	Alpha-bromizovaleric acid ethyl ester/Menthol
Product status	Food supplement
Pharmaceutical form	Oral drops
Use	Sedative

Validol Fytolab tablets, N10

Composition	Menthyl isovalerate
Product status	Food supplement
Pharmaceutical form	Tablets
Use	Sedative

Sinovex arthro 32 mg solution for injection

Composition	Sodium Hyaluronate
Product status	Medical device
Pharmaceutical form	Solution for injection (intra-articular)
Use	Injected into the knee to relieve pain and decreased articular mobility associated with degenerative knee lesions and other synovial joints

Sinovex arthro 44 mg solution for injection

Composition	Sodium Hyaluronate
Product status	Medical device
Pharmaceutical form	Solution for injection (intra-articular)
Use	Injected into the knee to relieve pain and decreased articular mobility associated with degenerative knee lesions and other synovial joints

TRIBUMEN 350 mg capsules, N30

Composition	Tribulus terrestris (60% protodioscin)
Product status	Food supplement
Pharmaceutical form	Capsules
Use	Helps to maintain a sexual desire and good sexual function

TRIBUMEN PRO capsules, N20

Composition	Serenoa Repens/Tribulus terrestris/Ecklonia Bicyclis K./Biovis®
Product status	Food supplement
Pharmaceutical form	Capsules
Use	Helps to maintain a good prostate and urinary function in men. Helps to maintain a sexual desire and good sexual function

Ellamé®
P A R I S

Ellamé Anti-aging face mask 30 ml 1 FL.OZ x 5

Composition	Compositum
Product status	Skin care product
Pharmaceutical form	Sheet mask
Use	Skin firming and regenerating

Ellamé Hydro Complex face mask 30 ml 1 FL.OZ x 5

Composition	Compositum
Product status	Skin care product
Pharmaceutical form	Sheet mask
Use	Skin moisturizing

Ellamé Scrub 30 ml

Composition	Compositum
Product status	Skin care product
Pharmaceutical form	Scrub
Use	Exfoliation of the skin to keep skin smooth and glowing

Ellamé Scrub 3 ml

Composition	Compositum
Product status	Skin care product
Pharmaceutical form	Scrub
Use	Exfoliation of the skin to keep skin smooth and glowing
